TESTIMONIAL:

ECL have been working closely with Essex County Council's Targeted Employment team, where we have used the Naturally Talented Me Careers Quiz with our Inclusive Employment customers of all ages, different requirements and needs.

This is a fantastic way of supporting individuals to engage with others and recognise their potential, as well as a great conversation starter to help them recognise talents and values they don't always see in themselves. It also helps our customers think outside of their comfort zone at job ideas and is highly recommended by our team within Inclusive Employment.
